

City of Long Beach

Rebuilding Stronger, Smarter Safer

Working Together Towards Resilience
Together we can become a model of resilience

Come learn how you can help build a more *sustainable* and *resilient* Long Beach

Location: **The West End Community Center, Maryland Avenue**

Date: **Wednesday, September 10th, 2014 from 7-9pm**

Last May, Global Green, an environmental nonprofit working to stem climate change and build a more sustainable, secure future, came to Long Beach for a Sustainable Neighborhood Assessment of the West End (funded by EPA and supported by the Natural Resources Defense Council and US Green Buildings Council). They met with the City and West End community leaders.

The Global Green team will present their report and engage residents and business owners in a discussion of what we can do, and share these proven, practical, cost-efficient ideas at Wednesday's meeting.

We hope to see you there!

Please join us at this meeting and help spread the word to your neighbors and encourage them to join us as well!

Brought to you by:
