(516) 431-1000

Arbor Day Tree Planting Event

Friday April 24, 2015 – 5:30 pm
Recreation Center – 700 Magnolia Boulevard

The City Council invites you to join our 2015 Arbor Day Tree Planting Event

Our Beach Community Needs Trees to absorb and filter storm water. Storm water that does not get filtered through the earth goes straight to the beach and bay carrying with it all the ground pollution (oil, pet waste, fertilizers –etc.)

Healthy Trees absorb noise, slow traffic, reduce glare, clean the air, produce oxygen, and moderate the temperature.

The Long Beach Tree Replanting Master Plan includes sustainability, diversity and aesthetic design. The trees chosen are proven to be successful in a coastal environment. A diverse selection is essential to prevent one environmental event or pest from wiping out the entire tree population.

Join us on Friday April 24 at 5:30 pm to celebrate Arbor Day and the beginning of our citywide tree replanting program.

More information on tree care and how you can help raise the green canopy will be available on our website www.longbeachny.gov
