RE: City of Long Beach Floodplain Management Plan

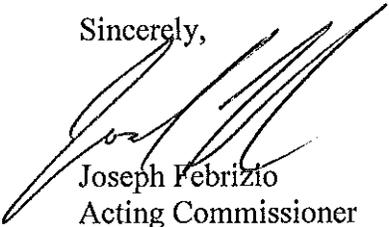

Dear Planning Committee,

Thank you again for your participation on the Planning Committee to develop the City of Long Beach Floodplain Management Plan (FMP). As you probably know, we kicked off the planning process with our partners at Tetra Tech, Inc. (Tetra Tech) on October 2, 2019. Our next step is to assess the flood hazard, focusing on the source, frequency, extent, and causes of flooding in the City.

We will be conducting a meeting from 3:00-4:30 p.m. on Wednesday, November 6, 2019 at Long Beach City Hall, 6th floor, 1 West Chester Street, Long Beach, NY. At this meeting, we will discuss flood events that have occurred and their impacts, our flood insurance rate maps (FIRM) and other flood hazard areas, drainage issues, and other topics related to the nature of flooding in the City. I would appreciate it if you would attend the meeting.

Thank you for your support, and we look forward to seeing you at the Planning Committee Meeting. Please contact me if you have any questions.

Sincerely,

Joseph Febrizio
Acting Commissioner

The City of Long Beach has begun developing a Floodplain Management Plan (FMP). The FMP documents the City's vulnerability to the flood hazard, and the City's strategy to reduce that vulnerability. There will be a public meeting to discuss flood vulnerability and the planning process on November 6, 2019, from 5:00-6:30 p.m. The meeting will be held at Long Beach City Hall, 1 West Chester Street, Long Beach, NY. All interested residents, businesses, and other stakeholders are invited to attend. Contact Joe Febrizio, Acting Commissioner of Public Works, for more information.
