7. Evaluating Progress Toward Measurable Goals MCM 4

Use this page to report on your progress and project plans toward achieving measurable goals identified in your Stormwater Management Program Plan (SWMPP), including requirements in Part III.C.1. Submit additional pages as needed.

A. Briefly summarize the Measurable Goal identified in the SWMPP in this reporting period.

The City Construction Site Stormwater Runoff Control program will provide equivalent protection to the NYSDEC SPDES General Permit for Stormwater Discharges from Construction Activity. This includes reviewing SWPPPs submitted to the City for projects disturbing an acre or greater of land.

B. Briefly summarize the observations that indicated the overall effectiveness of this Measurable Goal.

The City has chosen to evaluate the number of SWPPPs reviewed as an indicator for measuring the overall effectiveness of the City's compliance with the Construction Site Stormwater Runoff Control program requirements. The City received ____ SWPPPs during this reporting period. The threshold for a SPDES General Permit for Stormwater Discharges from Construction Activity is rarely met within the City because less than 1% of City parcels are zoned to an acre or greater.

C. How many times was this observation measured or evaluated in this reporting period?

			1
--	--	--	---

(ex.: samples/participants/events)

D. Has your MS4 made progress toward this measurable goal during this reporting period?

Yes No

E. Is your MS4 on schedule to meet the deadline set forth in the SWMPP?

Yes No

F. Briefly summarize the stormwater activities planned to meet the goals of this MCM during the next reporting cycle (including an implementation schedule).

The City will review SWPPPs as they are submitted to the City for comment and approval. The City will follow the City's Written Procedures for MCMs 4&5: Construction Site Stormwater Runoff Control and Post-Construction Stormwater Management. The City has also finalized a SWPPP Guidance Document, which is to be distributed to applicable building permit applications to inform them of the City's Construction Site Stormwater Management Program as necessary.

1. Choose/list each municipal operation/facility that contributes or may potentially contribute Pollutants of Concern to the MS4 system. For each operation/facility indicate whether the operation/facility has been addressed in the MS4's/Coalition's Stormwater Management Program(SWMP) Plan and whether a self-assessment has been performed during the reporting period. A self-assessment is performed to: 1) determine the sources of pollutants potentially generated by the permittee's operations and facilities; 2) evaluate the effectiveness of existing programs and 3) identify the municipal operations and facilities that will be addressed by the pollution prevention and good housekeeping program, if it's not done already.
