

# City of Long Beach

## Summer Food Concessions

*Enhancing the Local Flavor*

This summer, there will be a wider variety of concessions along the beach and boardwalk than ever before, providing residents and visitors with an abundance of choices in convenient locations. The decision to offer an unprecedented diversity of excellent quality foods, with a local flavor, was based on feedback received during the boardwalk community outreach engagement process that took place last year.

Hundreds of requests for proposals were sent out by the City for the operation of beach concessions this summer. All licensed food merchants/businesses were individually contacted, and notice of the RFP was published in numerous purchasing and bid publications in the tri-state area.
